City of Cole Camp

Public Works Update

Presented by: Public Works Director
Meeting Date: November 19, 2026

Wastewater

- Sludge beds cleaned out.
- Normal operations of the sewer plant.
- Monitor lift stations.

Water Department

- Daily water tower observations continue, including monitoring water pressure and water flow.
- Daily utility locate requests and building permits are being completed.
- The Mayor and Public Works Director completed water certification classes this month. We will be waiting for a time to take the test for certification.
- Performed monthly water test with contracted water operator.
- Benton County Emergency Response is moving their radio equipment out of the water tower pump house into a designated shed next to the pump house.
- Perform monthly water meter readings.
- Repair water meters as needed.

Streets Department

- Patched a couple pot holes.

Parks & Library

- Mowing is done for the year. Will run mowers one more time at parks to mulch leaves.
- As of 11-13-2026 park bathrooms are closed and winterized for the winter.
