City of Cole Camp - Recodification Project

From Patty Palmieri-Phelan <p3@generalcode.com>

Date Wed 10/7/2026 1:38 PM

To Dawn Paul <dawn.paul@colecampmo.gov>

Dear Dawn:

Thank you for contacting us about the recodification project. We understand that the City is considering cancellation of the project.

Should the City decide to cancel the project, both the City and General Code would be released from any further obligations related to project milestones, deliverables, invoicing, or other requirements under the agreement.

As discussed, it remains important to keep the City's Code and *eCode360* online Code current. Accordingly, cancellation of the recodification project would not affect General Code's ongoing codification services for the City, including Code supplementation, annual statutory updates, and hosting of the online Code through *eCode360*. In recognition of the initial project invoice previously paid by the City, we would apply a partial credit of \$1,520 toward future services. This credit would remain available and may be applied toward future eligible services, including supplementation and/or *eCode360* annual maintenance.

If the City elects to continue with the recodification project, we are prepared to discuss next steps and move forward with the project as planned.

After the City has had an opportunity to review and discuss these options, please let us know how it would like to proceed.

Sincerely,
Patty Palmieri-Phelan
